

# KEERSOM gr. 6

1

$$15 \times 17 =$$

2

Splitsen

$$15 \times 17 \begin{cases} \rightarrow 15 \times 10 \\ \rightarrow 15 \times 7 \end{cases}$$

( Let op dat je 1 getal splitst!  
Het andere getal laat je heel)

3

Splitsen en optellen

$$15 \times 17 \begin{cases} \rightarrow 15 \times 10 = 150 \\ \rightarrow 15 \times 7 = 105 \end{cases}$$

(deze kan je ook splitsen)

$$\left. \begin{array}{l} 10 \times 7 = 70 \\ 5 \times 7 = 35 \end{array} \right\} \begin{array}{l} 70 + 35 = \\ \underline{105} \end{array}$$

4

Antwoord

$$15 \times 17 \begin{cases} \rightarrow 15 \times 10 = 150 \\ \rightarrow 15 \times 7 = \underline{105} \end{cases} +$$
$$255$$

Dus  $15 \times 17 = 255$
